Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](#) is also encouraged.

TABLES AND LISTS

☐

<th> elements and elements with [role="columnheader"/"rowheader"] have data cells they describe.

▼

These are opportunities to improve the experience of reading tabular or list data using assistive technology, like a screen reader.
